The thing to do now was to conjure up some reasonable offense, some triffing transgression that would open the iron gates of the prison, as difficult of entrance as it was of exit. and tide him over the winter months. But what could he do? Not a single misdemeanor suggested itself to his overwrought hrain. If he could only steal something long enough to get arrested and sont to the island! But how? When, and ahove all where?

Broadway and Thirty-third street, with its triangle of shops, answered that question. It was very late, hut he know that a week before Christmas the shops would he open until late. > Over nineteen hundred years have passed since Christ was born, hringing the message of peaco on earth and good will to men. Before his time the world knew ne such doctrine. There was the law of might, and might prevniled. There were rights, hut rights were dependent upon the strength of arms and often suffered. The strong arm governed in the affairs of men. The doctrine that Christ preached was one of eallghtenment, an appeal to the reason, addressed to the higher self of man. That Christianity spread so rspidly after the first struggilng start is preef that men were eager for such a tenching, and that they longed for the opportunity to live their lives placidly and honestly in a spirit of

brotherhood. Those who are discouraged by the eceasionsi outbrenks of strife between nations should take comfort in the thought that there is a stendily inercasing sentiment for pacific adjustments, that the essential spirit of Christianity is at work throughout the world te bring mon into more reasonable relations, and that in the international as well as the private conditions of life the doctrines that wero first preached in Juden nineteen hundred years ngo are becoming steadly more dominant.

Christmas day naturally causes a reflection upon the state of humanity as nffceted by the teachings of him whose hirth is celebrated. Men are unquestionably kiuder and more thoughtful toward one another now than ever befero. There is more charity in the world, and more justice, and mere earnest disposition to bring humnnity up to a higher level. There is more widespread education as a result of this spirit of helpfulness, and there is less suffering. Men are devoting themselves aud their lives to the study of the needs of the less fortunate and to the nmelioration of their condition. In all lands practical Christinnity is working to the end literally of bringing peace en earth and good will te

The ebservnnees of Christmas are mero tokens of the essential spirit of the day, which is more than the mere twenty-four hours of this particular calendar time, and extends throughout the year. TO THE NEW OFFICERS.

Within the next few days the oath of office will have been administered to the county officers elect, and they will have assumed their various duties and responsibilities. The success or failure of any administration depends largely upon the beginning. The start that is made will, to a great extent, influence the policy of the whole term.

The Courier is optimistic and predicts a sane, businesslike administration; that the new officers will bring into the discharge of their duties all the energy and ability that they posses, and that they will earnestly study local conditions and seek the best means for advancing the interests of Morgan county; that the finances will be handled in an economical, yet not niggardly, manner. We trust that a spirit of enlightened progress will control and that the work of public improvement will be systematically carried out. Jacksonville, where the standard of revolt had first been raised, was in Morgan, the colonel's home county, and so it came to pass that the defection was laid to the machinations of the colonel himself. And yet, as the politicians who were always dropping into Chicago to correct their reckonings, paused an instant by the leather chair, the old white head would slowly sway from side to side, and the old mnn would

teacher advised me to TAKE

By H. C. WILSON.

Before this issue of the Courier reaches its subscribers the West Liberty school will have closed its doors until January 5, 1914.

We feel that all departments have done good, thorough work during the last four months, but we earnestly desire and confidently expect to do much better work during the next five months, and we see no reason why our desires and expectations should not be realized Prof. John M. Perry will be transferred from the grades which he has been so successfully teaching for the last six weeks to the Normal Department which will open its next session of five months Monday, January 5, 1914. A good man will be elected to take his place in the grades.

· From reports coming from all parts of the county we are 'expecting Prof. Perry to be greeted by a large and enthusiastic class on the first day of the session. We are also expecting quite a large number to enter the different grades and several to join the High School classes the first of the year. . In fact the prospect for a largely increased attendance immediately after the holidays was never more flattering, and it now looks as if we were going to experience another overflow in attendance.

We hope, however, to be able days. to make ample provision for all who may come. We earnestly hope that all the families in Saturday West Liberty who are in a position to do so will be willing to board this large body of young Cole's. people who will doubtless be knocking at their doors within the next few weeks. We certainly cannot afford to turn any of them away and let them go elsewhere for their education. So let's all get busy and give them a cordial welcome into our homes even if we do have to make some sacrifices in doing so. If we will all do this, I sincerely believe that we shall have one of the biggest and best schools that we have ever had in town last week. here—during— the next five

School closes for the holidays Tuesday, December 23, and most of the teachers will leave town Wednesday morning. Misses Stivers, Roach, and Marksbury will spend the holidays at their respective homes at Paris, Law renceburg and Harrodsburg. Prof. Perry will visit his son ir Pittsburg, Pa., and the writer expects to spend the holidays with his brothers at Lexington.

The teachers opened their hearts and also their pocket books and treated the entire school to candies and fruits Monday afternoon.

The rooms of Mrs. Lykins and Miss Roach entertained the rest of the sooms delightfully the same afternoon with songs, recitations, and a play.

These ladies had a beautifully decorated Christmas tree on the rear of the stage around which the presents were deposited. Santa Claus, in the person of Mr. Earl Franklin, acted his part well in distributing the presents. The parents had been invited and quite a number honored us with their presence. All evidently went away with lighter, happier hearts.

Here's wishing a merry Christmas and a Happy New Year to all—the Courier force included.

The Knocker.

After God had finished the rattlesnako, the toad and the vampire, he had some awful subatance left, with which he mado a knocker. A knocker is a two-legged animal with a corkscrew soul, a water-sogged brain and a combination backbone made of jelly their hearts he carries a tumor of rotten principles. When the knocker comes down the atreet honest men turn their backs, the angels in heaven tako precipitate refuge behind their harps and the dovil barlocks the gates of hell.-Missourl Brunswicker.
